By signing this application and health plan enrollment for you are hereby consenting to LifeX's use of such data for any means it deems reasonable in LifeX's sole discretion so long as such data is de-identified.

5. This Authorization is valid beginning on the date and time that you submit this Application and expires upon your request or upon your termination as an employee of LifeX, whichever comes first.

6. The entities receiving health information under this authorization will not receive direct or indirect remuneration in exchange for disclosing the health information.

7. I understand that, as set forth in the Privacy Notice I have the right to revoke this authorization, in writing, at any time, except to the extent that any entities have acted in reliance upon it, by sending written notification to: legal@lifexresearch.com

11. I have read the HIPAA Notice of Privacy Practices.

By initialing, you agree to the terms of this Authorization.

I have read and understand that the Plans exclude specialty medications.

I understand that the information contained in this Application is for information purposes only and does not guarantee or bind BHPI to provide health benefits coverage.

I consent to being contacted with certain non-emergency, automated, pre-recorded or other text message communications from BHPI, XBG and partners under the Telephone Consumer Protection Act (TCPA). Medication Disclosures

The plans discussed below specifically exclude **all specialty medications**, including human growth hormones. Specialty medications are defined broadly as medications classified as **high-cost, high complexity and/or high touch**. Specialty drugs are often **biologics** — “drugs derived from living cells” that are injectable or infused (although some are oral medications).

Due to this exclusion, the plans work with a 3rd party vendor that can source medication through foundational assistance (i.e. “PAP”) based on qualifying set of criteria including income and household size.

For those medications that are on this formulary, LifeX reserves the right to use means other than retail fill in the provision of your medications. It is important to consider whether this policy will meet your needs if you are currently or anticipate taking specialty medications. Further, it is **highly advised** that the employee / potential Plan member(s) (including dependents) discuss available medications and related coverage with the Plan provider prior to executing and submitting this Application and related Health Plan Enrollment Form.

PLAN TERMS AND CONDITIONS

Managed Care

The health and wellness benefits offered by LifeX are based on a managed care model (the “Program”) and follow strict guidelines on the use of evidence-based medicine, Centers of Excellence (COEs) and best in class physicians and hospital systems. The model is focused on enhancing the clinical outcomes and improving member health, which paradoxically, should lower costs for both the covered members and the Plan.

Not all medications and procedures are covered under this program, and there are many providers and facilities that will fail to meet the rigid, higher quality standards of the model. To avoid any disruption of current or planned medical treatments, please answer the following questions as honestly and completely as possible. This information will be used to determine how the Plan can meet your medical needs with the least amount of disruption or interruption of service.

I have read and understand the information set forth above: Yes

I understand that these Plans cover only disclosed pre-existing conditions and based on my health status, I cannot be discriminated against in any way based on the information I have submitted. I understand that LifeX may offer multiple plan design options with various types of coverage limitations, and it is ultimately my responsibility to thoroughly understand the coverage selection I choose.

I further understand that false, incomplete, or inaccurate information provided by myself may result in the termination of my coverage or the non-payment of my benefits.

Misstatements & omissions made by me on this health application may cause me and any dependents that I may have to lose complete coverage under the Plan.

Rates & Contract Terms

Once a member is entered into a plan of their choice (the “Plan”), the initial term of that Plan (the “Initial Contract”) shall remain in force, as follows:

Calendar Year Deductible: Once a member chooses a Plan with a fixed **Calendar Deductible Year**, the initial term will end on the first December 31st following the initial enrollment month (Effective Date). The deductible will reset on the next January 1st with each subsequent term of 12 months. For example, if a member enrolls in September, their deductible will run for four months and reset on January 1st.

As with all plans, member rates are based on the following:
